VOLUNTEER FOR A BRAIN STUDY!

We use brainwaves to study how people comprehend speech. We want to understand and improve hearing ability in Military Service members. As a civilian, you can help out by volunteering to be a subject.

We need volunteers to participate in one or more experiments, lasting from 1 to 1.5 hours each. You will be compensated for your time.

Please look carefully to see if you satisfy ALL the criteria below:
1) Age 18-65
2) Normal hearing ability
3) Adequate vision in at least one eye (contacts or glasses ok)
4) NO history of neurological injury or psychiatric condition that prevents you from attending to speech
5) NO scalp problems or hair conditions that prevent brainwave recording OR ear conditions that prevent wearing or hearing through earphones
6) Civilian (not a US Veteran, active or off-duty Service member)

To volunteer, visit us at https://millerlab.faculty.ucdavis.edu/participate
